Motivated to take on new challenges and write clean, efficient code. Committed to building applications that make a difference while continuously expanding my skills.

Work Experience

IT Coordinator

City Properties Co.Ltd, Yangon, Thingangun

October 2024 - Present

I build and maintain secure ERP apps, switching between programming languages for custom builds and Power Platform low-code for fast, automated workflows. I'm make sure that the UI is responsive and the data stays optimized. Actively troubleshooting user issues, I ensure the smooth operation and continuous improvement of enterprise applications.
